

KELLTON TECH

Fast-track your **SAP** Solution Manager Upgrade

As a decade-long SAP Gold Partner, Kellton Tech has the expertise and technical knowledge to help companies derive maximum value from their SAP solutions. With the December 31st SAP Solution Manager Upgrade deadline quickly approaching, companies can count on us to plan and execute a successful upgrade while helping them take full advantage of the new SAP Solution Manager functionalities.

Our team of SAP experts develops a tailored approach based on their expert assessment of your current system landscape to help you seamlessly upgrade to Solution Manager 7.2. Our prior assessment and approach ensure a smooth, rapid transition whether on the cloud, on-premise, HANA, or any other existing database. Our SAP experts take the upgrade process one step further by partnering with you to help you realize the full potential of your new SAP Solution Manager, resulting in true business and digital transformation and ensuring maximum return on investment.

We will also work with you to unify your technology stack and increase the reliability of your SAP and non-SAP application landscape while replacing legacy ALM solutions with SAP Solution Manager.

Why Upgrade?

The SAP Solution Manager Upgrade is mandatory. Starting January 1, 2020, clients who have not upgraded to SAP Solution Manager 7.2 will lose all connectivity to push or receive data from SAP.

The new version offers significant enhancements, including:

**Manage systems
with enhanced
template-based
MAI**

**Powerful technical
monitoring
capabilities**

**Improved UX -
UI5 based**

**SAP's unified UX
strategy**

**Dashboard
factory**
